

# Be Septic Savvy

Book your Septic Stewardship Program visit today!

Do you know what's going on in your back yard?

The Bay of Quinte Remedial Action Plan's (RAP) Septic Stewardship Program focuses on homeowners with shoreline property on the Bay of Quinte. This is a voluntary educational program providing homeowners with a free checkup of their septic system (tank and leaching bed), and helpful advice on the care and maintenance of the system.

This program pays to have your septic tank/holding tank pumped out as part of the checkup, **this is a savings of 200.00 - 250.00 dollars.**

Our septic team will provide you with information on how to maintain your septic system, adding to the longevity of the system. A failing septic system can add excess phosphorus to nearby waterbodies causing algal blooms and excess plant growth. As well, bacteria from a failing septic system can cause localized health impacts for homeowners and their neighbours. Participants in the program will receive a personalized report on their system and free water efficiency devices.

The septic team can also provide you with a consultation covering best management practices for your shoreline and well, as part of your site visit.

**To book your septic stewardship site visit, contact:**
