

To whom it may concern,

I would like to take this opportunity to express my appreciation with the food resource program. I went off work in October due to medical issues and have been unable to work since then.

I started using the resource program shortly thereafter, as it was hard to make ends meet on a monthly basis.

The staff & reception has been incredible and very understanding and what means the most "Non-Judgmental".

It has helped me and my family out so very much, and has shown me how a Community can help each other out.

Once I'm cleared to go back to work I plan on giving back the best I can, through volunteer, money or however I can help.

Thank you to all involved, and take these to be a better community,

Very much appreciated,

Yara, Brandon & Owen
