INITIALING OF AGREEMENT FOR 1.8 KM HIGHWAY 2 TURTON PENN LEASE AREA

I would like to inform you of the initialing of an agreement by the Tyendinaga Mohawk Council and the governments of Ontario and Canada as a settlement proposal for 1.8 km of former King's Highway No.2 which passes through Shannonville.

The Mohawks of the Bay of Quinte would maintain title for the 1.8 km Highway property. This will be a band owned road and the public will have a bare right of passage. The settlement is for 1.2 million dollars.

A detailed information package will be mailed to you in early March 2005 and there will be three public information meetings on this issue prior to the ratification vote.

The initialing of the agreement means that we are willing to put the settlement package before our membership for a vote of approval or rejection.

A more detailed press release is enclosed for your perusal.

CASINO RAMA

The Ontario First Nations Limited Partnership met in Rama on January 25 - 27, 2005 to discuss the Mnjikaning Cash Sweep proposal. Mnjikaning Cash Sweep proposal would have seen cash sweeps of all available Casino Rama revenue to generate sufficient cash reserves to pay for the 2007 balloon payment of 93 million dollars to finish paying for the hotel complex at Rama.

The Chiefs of Ontario were opposed to Mnjikaning's Cash Sweep proposal since it would cause hardship on First Nation's who are dependant on Casino Rama revenue streams for their various community projects.

The Ontario First Nations Limited Partnership (OFNLP) proposed that the 2007 balloon payment of 93 million dollars be paid from the 92.5 million dollar escrow account which is being held until Mnjikaning's 35% court case can be ruled upon or settled through a negotiated settlement. Mnjikaning is in court seeking a ruling that Mnjikaning is entitled to 35% of the net revenue of the casino revenue. The Chiefs of Ontario do not support the notion that Mnjikaning is entitled to a 35% net revenue distribution share.

(2)

On the final day of the meeting, Chief Sharon Henry Stinson informed the OFNLP that Mnjikaning would agree to accept the proposal from the OFNLP concerning the financing of the 2007 balloon payment of 93 million dollars for the hotel. This will ensure that the cash revenue distribution will continue to First Nations communities until the year 2011.

In the year 2011, Mnjikaning may request Ontario to continue the licensing of Casino Rama for additional 5 year periods. The OFNLP also approved a resolution to negotiate the 35% revenue distribution issue with Mnjikaning.

20% WIN TAX ISSUE

Ontario has collected 750 million dollars in win tax from Casino Rama from the gross revenue. Mnjikaning and Chiefs of Ontario are involved in a court case opposing Ontario's entitlement to the win tax.

Last week, Premier Dalton McGuinty appointed former Premier David Peterson to attempt a negotiated settlement on the 20% win tax case. The OFNLP approved a resolution on January 27, 2005 for a negotiating committee to be struck to deal with this negotiation process and any resolution must be approved by the OFNLP and/or Ontario Chiefs in Assembly.

I hope that you find this report informative.

PRESS RELEASE

Negotiators for the Mohawks of the Bay of Quinte, Ontario and Canada
Initial Agreement Regarding Former Highway Two
through Shannonville, Ontario

On January 24, 2005, negotiators for the Mohawks of the Bay of Quinte ("MBQ"), and the governments of Ontario and Canada initialed an agreement related to 1.8 km of former King's Highway No. 2 passing through Shannonville, Ontario.

Now that the agreement has been initialed by the negotiators, copies of the agreement and an information package will be mailed to all members of the MBQ in late February or early March so that members will have an opportunity to review the settlement and discuss it with the Tyendinaga Mohawk Council.

Community information sessions will be scheduled for March, April and May so that the community can discuss all aspects of the agreement.

The settlement will then be the subject of a community vote, which is likely to take place in May or June 2005. Members will be able to vote in support of or against the acceptance of the settlement.

The principal terms of settlement include the following elements:

- The return to MBQ and confirmation of the reserve status of a 1.8 km portion the former Highway No. 2 right of way through Shannonville;

ADMINISTRATION

- Payment by Ontario totaling \$1.2 million in compensation for past and future use of the roadway.

Perhaps most importantly, this settlement gives MBQ back the entire Turton Penn lease area free and clear of all other encumbrances for the first time since the 999 year "Turton Penn" lease was made in 1835, finally implementing a Memorandum of Understanding made by the Tyendinaga Mohawk Council and Minister Shirley Martin in 1991.

Chief R. Donald Maracle said: "The settlement that we negotiated will now be put before the community through a ratification process. If the community agrees with the settlement, I will be pleased to finally see the long outstanding Turton Penn Lease and Highway issues addressed in a manner that will restore lands to our Territory and secure compensation for the Mohawks of the Bay of Quinte for the public's use of the road."

From 1997 to 2004, the Tyendinaga Mohawk Council were in negotiations with the governments of Ontario and Canada in relation to the roadway. These negotiations were the last item of business in the longer term process of fully restoring the entire Turton Penn leasehold area, a 200 acre parcel of land including much of the village of Shannonville, to the Tyendinaga Mohawk Territory, as provided for in a 1991 Memorandum of Understanding signed by the Tyendinaga Mohawk Council and federal Minister of State, Shirley Martin.

The negotiations included historical research into the creation of Highway 2 in the early 1920's, the widening of the Highway in the early 1960's and the Province's subsequent transfer of the Highway to the County of Hastings in 1996. It became clear from that research that there was legal uncertainty in relation to the portion of Highway running through the Turton Penn leasehold area.

EXPIRY DATE ON STATUS CARDS

Our First Nation members have been inquiring why there is an "expiry date" on our status cards. I e-mailed Indian Affairs to inquire about the expiry dates. Here is their answer:

Our INAC policy is that the cards need to be renewed every 3 years for children under 18 yrs of age (because their appearances change quite a bit while growing up). For the adults the cards need to be renewed every 5 years as they also change, but not as quickly. These expiry dates are also implemented as they will be keeping in line with other government issued type of documents/cards such as health cards, drivers licenses, passports, etc. Plus once the new card comes into effect (we do not know when yet) these dates will be automatically system generated on the cards. This will help to ensure for INAC and First Nations that there are less fraudulent cards in circulation. My only advice would be to alert the First Nation members to renew their cards before the expiry date, so that they will not experience difficulties when travelling/shopping.

Thank you for voicing your concerns and I will certainly let our headquarters people know the dilemma the expiry date puts on First Nation members.

"Attention All Land Owners/Purchasers"

The following procedure has been outlined for Mohawks of the Bay of Quinte members to follow when transferring ownership of land on the Tyendinaga Mohawk Territory due to a change in protocol by Indian & Northern Affairs:

1. You will be required to contact the Lands Department at the Administration Office if you wish to transfer all or part of your property. A form stating your wishes must be filled out and signed by all parties concerned so everyone involved clearly understands what your intentions are.
2. If you are transferring the whole of a lot, you may not have to have your property surveyed by a Canada Land Surveyor.
3. If you are transferring a portion of a lot, then a sketch of the property being transferred will be sent to Natural Resources Canada to determine if there is enough survey fabric (iron survey bars) in the ground to warrant acceptance of the sketch. If Natural Resources Canada says it must be surveyed by a Canada Land Surveyor, then it will be your responsibility to hire a Canada Land Surveyor. The Lands Department can assist with contacting a Canada Land Surveyor where you can obtain a quote to complete the work. Approximate time will vary due to the lack of Canada Land Surveyors in the area. When the Lands Department receives the surveyed sketch, a Land Transfer will be done.
4. The Land Transfer will be sent to the Tyendinaga Mohawk Council for approval and then to Indian and Northern Affairs. A Certificate of Possession should arrive in approximately 2-3 months.

Please Note: A survey technician may be utilized if:

1. Natural Resources Canada determines if a survey technician's survey report is sufficient. The Lands Department can assist with contacting a survey technician where you can obtain a quote to complete the work. This is a requirement if you intend to build on the lot to ensure you are following the proper setbacks from your property line.

For further information please call **Ken Brant** at the Administration Office **396-3424**.

NENDINAGA MOHAWK COUNCIL MINUTES
DECEMBER 13, 2004

A meeting of the Tyendinaga Mohawk Council, held on December 13, 2004 at 8:27 p.m. in the Council Chambers, continued as regular Local Business.

Present: Chief R. Donald Maracle
Councillors: Willard A Hill, Velma Hill-Dracup, Blaine Loft, Roy C. Maracle
Staff: Kathy R. Brant, A/JO

Chief reported that the Food Bank Concert fundraised \$1,375.00. Additional donations raised the collective amount to \$2,675.00.

MOTION #10: Moved by Roy C. Maracle, seconded by Willard A. Hill that this Council approve, as per the recommendation of the Accounts Receivable Clerk, to request a license from the Alcohol and Gaming Commission of Ontario for Salmon Run Enterprises to sell Nevada Tickets for School Programs.
Carried

Blaine Loft opened discussions regarding a previous motion made by Council to meet Cromarty Architects re: new Administration Building. Blaine suggests that much of the preliminary work (Terms of Reference, quantity of space needed, costs, location) could be done internally. Blaine requested that Council rescind Motion #13 of the December 2, 2004 Tyendinaga Mohawk Council Meeting, to meet with the Architect. Chief stated that a new building has been delayed far too long with the current building lacking appropriate space, poor air quality, lack of washroom facilities, etc. Blaine offered again to take the lead.

MOTION #11: Moved by Blaine Loft seconded by Velma Hill-Dracup that this Council approve to rescind Motion #13, from December 2, 2004 regarding the meeting with Cromarty Architects.
Carried

The NAO brought to Council's attention a memo from Tracey Antone regarding meeting dates for the Chiefs Committee on Health. Three separate dates: January 6-7, January 10-11 or January 31-February 1, 2005. Chief responded that he was currently available for any of those dates.

Velma Hill-Dracup noted that Wednesday, December 15, 2004 is a regular Tyendinaga Mohawk Council meeting, however she had a doctor's appointment and was inquiring that the meeting be moved to Thursday, December 16, 2004 so that she could be in attendance. Chief Maracle also stated that he was not available for the meeting on the December 15th as well due to the Association of Iroquois and Allied Indians tripartite meeting in Toronto. After discussing the full schedule of meetings on December 16th, Council agreed to hold the meeting on December 15th with any agenda items that were outstanding to be held over until December 16th.

Discussions were held regarding the over costing of the ball diamonds. Council will meet with the Recreation and Technical Programs staff on December 15, 2004 for further clarification

MOTION #12: Moved by Willard A Hill, seconded by Velma Hill-Dracup that this Council approve to meet with the staff of the Recreation and Technical Services Programs on December 15, 2004 at 9:00 a.m.

TYENDINAGA MOHAWK COUNCIL MINUTES DECEMBER 16, 2004

A special meeting of the Tyendinaga Mohawk Council was held on December 16, 2004 at 9 00 a m in the Council Chambers

Present Chief R. Donald Maracle
 Councillors Roy C. Maracle, Willard A. Hill, Blaine Loft (10 00 a m arrival) Velma Hill-Dracup
 Staff Darlene Loft, Recreation Coordinator, Peter Brant, Technical Services Officer
 Guest Steve Mercer, MBQ Operational Plan Consultant

Council reviewed the Recreation Facility Project that had been previously approved in 2003 for \$187,792.00 based on estimates that were provided by professionals in that field

An adhoc committee was formed in 2004 to review the original submission. Based on the engineered design from Jewel Engineering, the committee recommended additional field development and expanded parking areas. The new project amount is \$378,000.00. The project components are \$47,000.00 for drainage, \$122,000.00 for 2 parking lots, \$179,000.00 for soccer pitches, and \$30,000.00 to construct a berm. Tenders were called for with closing by November 19, 2004.

Council will consider utilizing \$378,838.72 from the Casino Rama Funds under the Health and Community Development component for the Karon hiak ta'kie Mohawk Recreation Facility Project.

The original budget of October 2003 and the revised budget of December 2004 are stated as follows.

	October 2003	December 2004
1. Storage Room	\$ 32,000.00	
2. Parking Lots	\$29,600.00	\$122,265.92
3. Soccer Fields	\$ 27,000.00	\$179,340.00
4. Ballfield Drainage	\$ 80,000.00	\$ 46,918.00
5. Holding tanks	\$ 19,192.00	
6. Bern Construction		\$ 30,314.00
Total Project Costs	\$187,792.00	\$378,838.72

7. Engineering Project
Administration fees 10%

The storage room repairs and the holding tank installation projects are nearing completion.

MOTION #1 Moved by Willard A. Hill, seconded by Velma Hill-Dracup that the Tyendinaga Mohawk Council approve to rescind resolution #2003-110, October 22 2003 identifying a budget of \$187,792.00 for the Mohawk Recreation Facility project since the final project costs would be determined by the receipt of tenders

Carried

MOTION #2 Moved by Blaine Loft, seconded by Willard A. Hill that this Council approve to host the Iroquois Confederacy Caucus meeting at Tyendinaga on January 13-14 2005 as per the request of the Onieda First Nation

Carried

Kathy R. Brant, AAO attended the meeting at 2 00 p m to record the minutes

Steve Mercer presented an update of the work he had completed regarding the two draft Arrears Policies pointing out the differences between both. Discussions were held around which policy Council would like to see implemented. Council agreed the Tenant Support Worker position as outlined in the second policy was a needed position and also agreed that the Arrears issue was administrative and not political. Steve Mercer was directed to firm up a final draft of the second policy to present to Council for signature.

Further discussions were had with regard to the possible necessity of By-Laws to support the policy and the involvement of the Restorative Justice Circle.

Todd Kring, Capital Projects Officer was asked to attend Council for an update on the agreement that was needed for Deborah Maracle regarding the Jumpin' Johnnies gas leak. Other discussions were held regarding the Quinte Mohawk School addition and the budget overrun. Additional discussions were held regarding the lagoon education and other upgrades for Quinte Mohawk School.

MOTION #3 Moved by Willard A. Hill, seconded by Blaine Loft that the Tyendinaga Mohawk Council approve an additional budget amount of \$501.10 for the over-run costs of the Quinte Mohawk School Addition Project. The over-run cost is attributed to fire calking purchased. A sum of \$888,500.00 was the Quinte Mohawk School addition cost. The over-run cost of \$501.10 will be forwarded to Indian Affairs for reimbursement to the Mohawks of

MEETING MINUTES

Steve Mercer continued his presentation with discussions on the Pay Equity Review and the amendments that were put forth by Terry Whyte, Templeman Consulting Group Inc. regarding a lobbying tool for Council. Steve will be contacting Ron Ireland, Kagita Mikam to find out if the funding that has been secured for this fiscal year can be accrued to the new fiscal year

MOTION #4: Moved by Willard A. Hill, seconded by Blaine Loft that Council approves to accept the proposal and amendment from Templeman Consulting Group Inc. for the pay equity review in the amount of \$45,31665. The Mohawks of the Bay of Quinte have received funding from Kagita Mikam for the pay equity review. The approval to proceed is based on approval from Kagita Mikam to accrue \$70,000.00 to the new fiscal year 2005-2006.

TYENDINAGA MOHAWK COUNCIL MINUTES JANUARY 12, 2005

A special meeting of the Tyendinaga Mohawk Council was held on January 12, 2005 at 10:00 a.m. in the Council Chambers.

MEETING MINUTES

The meeting was in the Council Chambers to review the status of the proposed Ridge Road project and related property acquisitions needed for road widening purposes and to discuss a new administration building and new fire tanker and pump

MOTION #1 Moved by Roy C. Maracle, seconded by Blaine Loft
Whereas the existing 1987 Fire Tanker currently utilized by the Mohawk Fire Department requires significant repairs to the body and the motor requires replacement, and
Whereas while the tanker remains inactive the Mohawks of The Bay of Quinte are in jeopardy of losing our superior tank shuttle accreditation that provides an insurance reduction for community members and Band Buildings and
Whereas the proposed amount required to purchase a new Fire Tanker and pump including contract administration totals \$223,494
Therefore be it resolved that the Tyendinaga Mohawk Council proposes a 50-50 cost share of these expenses with Indian and Northern Affairs and requests funding in the amount of \$111,747.00 M C R #2004/05-144

BUSINESSES BEING TAXED

January 25, 2005

Dear Business Owners:

We have been contacted by a number of business owners that have been contacted from Revenue Canada regarding tax issues. Revenue Canada has said that these businesses owe back taxes and in some cases have added up to a substantial amount of money over a period of years. Most of our businesses are small compared to many off reserve or even other first nations, which with taxes included could paralyze or even bankrupt the business.

If you have been contacted or know of someone that is has been contacted by Revenue Canada claiming your business owe back taxes, please contact the Economic Development Office 396-3424.

EDUCATION

TRUSTEE'S REPORT January, 2005

Alternative programs that are offered by HPEDSB are currently under review and recommendations will be presented to the Board next month. HOPE is one of the Alternative programs that can benefit from this review.

Starting the second semester February 4, 2005, HPEDSB will provide funding for an additional full time teacher at HOPE bringing the teaching complement to two full time teachers and will also add a teaching assistant to the HOPE program as well. This will strengthen the partnership that exists between HPEDSB and FNTI and will insure the success of the HOPE program and better meet the needs of students in the program.

I will be attending the Ontario Public School Board's Association Symposium January 27th - 29th, 2005, in Toronto. The symposium is set up to accommodate a pre session on Thursday January 27th to address First Nations Trustee issues and interests. The remainder of the symposium will address issues and information relating to the operation of School Boards across Ontario. This is one of two major conferences each year that brings Trustees, Senior Administrators and government representatives together to learn, share and participate in making the operation of School Boards more effective and successful. This symposium has been particularly interesting for me since I was on the planning committee to help put the whole program together.

If you have any questions or comments please call Mike Brant at 962-3595.

"From the Bus Barn"

There have been some concerns expressed, from parents, regarding **high** school students riding on the same buses as the elementary students. Bus drivers and school administration have done a great job to alleviate any problems that have arisen. We have not had any major incidents on any of the buses. Students have been spoken to as to what is expected of them while riding the buses and transferring from one bus to another.

The same rules apply to all students riding Mohawk Bus Lines, whether they are elementary school students, or highschool students. Misbehaviour on the bus may cause the driver to write up the incident and the individual offender or offenders. The information is passed on to the Principal where the student attends and disciplinary action is taken by that Principal. Discipline can range from a warning to suspension of riding privileges.

Mohawk Bus Lines operate 10 buses and transport approximately 500 students daily, to 8 different schools in the area.

We would like the community to know that every effort is being made to ensure that our students are transported safely.

Partners In Education 4 Quinte Mohawk School Community Report February 2005

Once again PIE 4 QMS is advertising for community members to sign up as volunteers. We also would like to take this opportunity to invite the community to come out to our meetings and share your ideas, issues and or concerns with the committee members.

PI&4 QMS next meeting is scheduled for Monday, February 7, 2005 at Quinte Mohawk School in the library from 7:00pm-9:00pm. All is welcome to attend.

BACKYARD

It may be common practice, but backyard burning of garbage in open containers can release dangerous pollutants including dioxins, volatile organic compounds, and particle pollution.

Inhaling or ingesting even small amounts of these pollutants can cause many dangerous health problems. Older people, small children, and those with respiratory problems are especially vulnerable. Dioxins can cause wide range of health problems, including cancer. The largest known source of dioxin emissions is backyard burning.

**OLD PRINTER CARTRIDGES,
0 TONER & CELL PHONES 0**

Do you tend to throw these away?

We are starting up a Fundraising program with **QMS** to recycle these items.

For every cartridge, cell phone, and toner container that is recycled, **THINKGREEN** will send **QMS** a rebate to go towards the school. (i.e. gym equipment, books, programs, trips)

Also for every 12 cartridges recycled **THINKGREEN** will sponsor a tree to be planted on our behalf.

There will be 2 main drop-off areas:
QMS and the Band Office

TOPIC FOR JANUARY IS :

CRYPTOSPORIDIUM : (KRIP-TOE-SPOR-RID-EE-YUM)

WHAT IT IS - Cryptosporidium is a protozoa parasite (an organism) with a complex life cycle. It is 4-6 microns in diameter in size (Note 1 micron= 0.001 mm =0.00004 inches) which is too small to see by the naked eye.

WHERE IT IS - It is found in low levels in almost all treated and non-treated drinking water. One common source is surface water, generally runoff areas with wild animals. There is also a seasonal effect and typically turbidity levels (cloudiness) are higher in the spring which means that there is an increased potential in the spring.

WHO IT AFFECTS: This parasite affects anyone who is exposed by digestion and infects the gastrointestinal tract causing diarrhea, abdominal cramps, vomiting, nausea and dehydration. It can also result in mortality, particularly among those with weak immune systems, in primarily in the elderly and the young.

HOW IT IS TREATED: Cryptosporidium is resistant to chlorine disinfection. Acceptable treatment methods are sand filtration, membrane filtration, ozone disinfection and ultraviolet disinfection.

WHY IT IS A CONCERN: Concerns about cryptosporidium occasionally arise in discussions of drinking water quality. Poorly operated treatment plants or treatment plants incapable of treating water to acceptable turbidity levels can contribute to

ENVIRONMENT

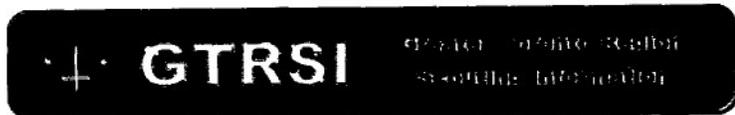

Welcome to Recycle City! There's lots to do here - people and places to visit and plenty of ways to explore how the city's residents recycle, reduce, and reuse waste.

To get started, just click on any section of Recycle City that you want to tour, or click on the Dumptown Game. You can create your own Recycle City scavenger hunt or go to the Activities area and see other ways you can explore Recycle City.

When you leave this place, you'll know much more about what you can do to help protect the environment. If you need to print a section of Recycle City, you can save paper by using the printer-friendly version.

In October of 2003, we made some updates to Recycle City, thanks to feedback from recyclers around the world! Check out what's new in Recycle City!

Greening Up The House

Things That Beavers, Cubs, Scouts And Their Parents Can Do To Make Their Home More Environmentally Friendly

It is less expensive to be environmentally considerate than to pollute! Polluting costs money because it wastes money, therefore being enviro-smart will save you a lot of money! Here are some things you can do to help:

- The temperature of the water heater could be turned down by 20%. The water heater control should be at the warm (about 54 degrees). If you need to mix cold water with the hot water, the temperature is up too high.
- The thermostat could be turned down at night to 17 degrees and shouldn't be above 20 during the day. Wear a sweater if you are chilly. An electronic thermostat will do this automatically.
- Doors should not be held open (when heating or cooling) for extended periods of time. Even left slightly ajar, huge amounts of energy can be wasted.
- Have your parents take bags to the store when grocery shopping - use plastic or better still canvas.
- A diaper service for young children costs under \$15.00 a week. It costs less, is less work and causes no environmental damage or waste. Disposables cost the environment and create HUGE amounts of waste.
- Buy and use non-toxic cleaners. They are less expensive with no dangerous side effects. Vinegar is a great cleaner. Buy eco-friendly products like Ecover 7th Generation, Simply Clean, Earth Hydrox (bleach), Toms, etc.
- Turn off the lights, computer, TV when not in use.
- Close the refrigerator door as quickly as possible.
- Make air freshener with a spray bottle, 1/2 litre of water, baking soda and natural scent (your choice). Spray fresheners like LYSOL use alcohol and phenols to trick your nose and destroy your ability to smell.
- Recycle ALL cans, bottles, containers, paper, cardboard, boxboard, Styrofoam and aluminium.
- Use a garbage can instead of green garbage bags.
- If you have a fireplace, burn meat scraps, bones, cheese or greasy items.
- Use old Kleenex to start the fire and recycle your newspapers instead of burning them.
- Replace 4 low wattage bulbs with a 100 watt bulb which gives you more light less expensively. Where possible, replace regular light bulbs with compact fluorescent bulbs - they last much longer and use

January 2004

can take a shower using less than 2 litres this way.

- Buy natural food products rather than inexpensive, unnatural foods that are full of chemicals.
- Use electric power instead of batteries. When disposing of batteries, be sure to take them to a hazardous waste depot for disposal - they are toxic.
- Buy clothes with Canadian rather than designer labels. Most designer clothes are poorly made.
- Buy the best products available, whether it be tools, clothes or appliances. The product will last longer, create less waste, use less energy and over the lifetime of the product and will be less environmentally damaging.
- Buy ONLY what you need and learn to get by with what you have.
- Buy products in bulk whenever possible: food, nails, etc.
- At school, make sure you recycle all your recyclables in the proper containers.
- Reuse your writing paper on the opposite side. Using only 1 side is wasteful.
- Don't laminate your work - it is a waste of resources and takes 1,200 years to break down.
- Take a garbageless lunch.
- Reuse your plastic pop bottle by refilling it.
- Don't buy "juice boxes" or "snack packs" which are overpackaged and expensive.
- COMPOST all kitchen scraps, leaves, grass, etc. It makes earth that you can use in your garden or to fertilize your lawn.
- Say NO to lawn sprays - they are poison and will cause harm to people and animals.
- Use ORGANIC fertilizer and overseed with grass seed. Don't use chemicals.
- Cut the lawn with a manual lawn mower - good exercise and no pollution. Tell Dad to raise the cutter blades - it should never be shorter than 2.5-3". Never cut when wet or in the morning and water only before 10 a.m. once a week if needed.
- Ride your bike instead of taking a car or bus - good exercise and no pollution.
- Tell Mom or Dad not to leave the car running for more than 30 seconds - save gas and less pollution. Don't idle - if a train is coming, shut off the engine.
- NEVER LITTER! Even small things add up - recycle it or find a garbage can. If you see someone else littering, speak up and tell them to "pick it up". The fine for littering is \$300.00.
- Help with neighbourhood cleanups or organize one yourself.
- Plant a garden - try buying organic seeds and growing organic produce - it tastes fantastic!
- When travelling, treat every place you go as if it were your backyard. Don't pick wildflowers or walk in places you shouldn't - you might damage a fragile ecosystem.
- Never pour anything down a storm drain or sewer. Eventually you will be drinking it! Help out with the "yellow fish" program.
- Read Earth books like "365 Days To A Better Planet".
- Support Greenpeace and other environmental organizations.
- Support the need for sustainable living.
- Support the HEMP industry. This industry is blooming in Canada for supplements, clothing, food, biomass energy and insulation.
- Buy and support "green power" from the Ontario power regulators.

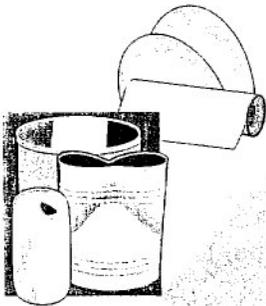

RECYCLING

A Recycling Reminder

Hang this on your wall!

Bring these items to your depot

Metal Cans & Foil

Rinse cans. Place lids in a can, pinch closed and put loose in blue bin. **Do not put aluminum cans inside tin ones.** Include clean aluminum foil and pie plates. *Flattened cans save space!* **No** pots, cigarette or butter wrappers or scrap metal. Avoid putting pop cans inside other cans.

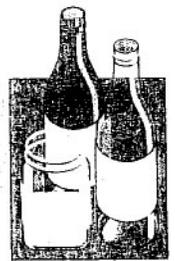

Empty Aerosol and Paint Cans

Make sure metal containers are empty. Take lids off the paint cans to let them dry, and place in the blue bin — *don't bag them.* **No** containers with product. paint cans larger than 4 litres (1 gallon), plastic paint cans, propane cylinders or other hazardous waste.

Plastic Containers

Discard tops and rinse containers for soft drinks, detergents, juice, bleach, shampoo, dairy products as well as clear and foam plastic cups, trays and packaging. Flatten soft drink containers and replace lids. All plastics with the numbers 1 to 6 on the bottom are OK. **No** blister or bubblepacks, prescription bottles or toys.

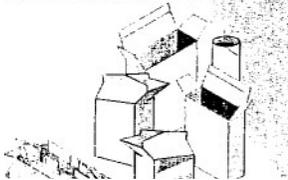

Bottles & Jars

Remove and rinse caps and lids. Metal lids can be recycled with cans. Leave loose in the blue bin. *Don't bag them.* **No** other types of glass such as kitchenware, ceramics, dishes, drinking glasses, window glass, light bulbs or mirrors.

Place in appropriately labelled bins.

Boxboard and Mixed Paper

Bundle junk mail and office paper separately from Boxboard. Flatten and stuff **boxboard** into a large box. **Boxboard** includes cereal, shoe and detergent boxes as well as rinsed milk and juice cartons, paper bags, sugar & flour bags, cardboard tubes, books (hardcover & paperback), egg cartons and other clean paper packaging. **No** drink boxes, tissue, paper towel or laminated paper. Do not put paper loose in blue bin.

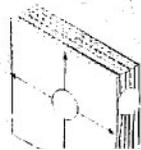

Plastic Bags

Stuff clean, dry plastic bags into a plastic bag and tie handles. Include rinsed milk pouches, grocery, bread, dry cleaning, frozen vegetable and blue newspaper bags as well as outer wrapper from toilet and hand tissues. Remove food residue, stickers and receipts. **No** meat, cheese or stretch wrap, cereal box liners or chip bags.

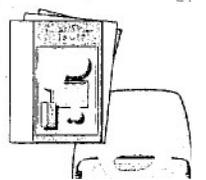

Corrugated Cardboard

Flatten and bundle corrugated cardboard boxes into a maximum size of 30" x 30" x 8" bundles. Only broken down and bundled boxes will be collected. **No** waxed boxes, soiled pizza boxes.

Newspapers & Magazines

Place newspapers, inserts, phone books, magazines and catalogues in a plastic bag next to your blue bin. **No** soiled newspapers. Keep boxboard and mixed paper separate, not mixed with newspaper and magazines.

The Myth of "Seduction" Male Survivors of Female Sexual Abusers

It used to be that all domestic, family, and sexual violence was considered a "dark secret." something that was never spoken about in public, and sometimes never even discussed within the families in which it occurred. In the past twenty years or so, as the recognition that violence that occurs within families is just as criminal as that which happens between strangers, more and more people have come forward to tell their stories and to help break the cycle by bringing this dark secret out into the light. People are beginning to understand that violence and abuse occurs in all kinds of families - rich and poor, big and small, in cities and in rural areas, and across all religious, economic, cultural and racial boundaries. We know that abuse results in harm that is both physically and emotionally scarring, and most of us know someone whose life has been touched by family violence or abuse, whether we realize it or not.

However, there are pockets of secrecy that still remain, even when the curtains are pulled back and abuse is revealed to the light of day. Consider the following scenario:

Jack is 12 years old, in grade seven. He doesn't have a girlfriend, but he has started to notice girls. One day his teacher, Mrs. S., asks him to stay after school and help her with a 'special project.' Mrs. S. is twenty-five, pretty, and one of the most popular teachers in school. Jack agrees to stay after school, but while he is helping her to put the class's art projects up on the bulletin board, Mrs. S. suddenly kisses him. Jack is very confused by this, especially when Mrs. S. tells him that he can't tell anyone what happened. She tells Jack that he is her 'favourite student' and asks him to stay behind after class again tomorrow. The next day, Mrs. S. kisses Jack and then fondles him. She again tells him that he can't tell anyone what happened, but he meets some friends on the way home and tells them what Mrs. S. did.

How do you think that Jack's friends, most of them also twelve-year-old boys just entering puberty, would react to such a story? How did you react? Did you think that Jack was "lucky" to have his pretty, friendly teacher act this way around him?

(2)

The scenario is one that has been coming to light more and more in the past few years, especially when it concerns older female teachers "seducing" their young male students. There have been several well-publicized cases in just the past few years, including Mary Kay LeTourneau, who was famously released from prison after serving nearly seven years for her "affair" with a twelve-year-old student, and Debbie Lafave, who was arrested last summer in Florida after it was revealed that she had a sexual relationship with a fourteen-year-old boy, who was also a student at her middle school. While both of these women faced criminal charges, for the most part they have been treated much differently than male sexual aggressors would be in the same situation. For some reason, many people believe that it is "okay" or "not so bad" when a young male is sexually abused by an older female, or even that it may be "normal" for such a sexual initiation to occur. It is difficult for some people to realize that the word "victim" or "survivor" also refers to males. Even when cases are given more publicity, such as that of the survivors of abuse at residential schools, it is normal for the public to believe that it is only male authority figures who perpetrated such abuse. Somehow it is difficult for us to believe that women, who are generally perceived as nurturers, can also be abusive, sometimes in deeply scarring ways.

We have often been hard-wired by society to believe that the "boogeyman" is always just that - a threatening, menacing male figure. It is only recently that we have begun to learn that not all "bad guys" can be spotted at sight, and, indeed, that not all danger comes from men. Think about these statistics:

- Half of all spousal murders are committed by wives (Straus & Gelles, National Institute of Mental Health, 1985)
- A 1986 survey of family violence found that 2 million men had been assaulted by a wife or girlfriend (Straus & Gelles, NIMH)
- Domestic violence (physical or sexual assault, emotional or verbal abuse) occurs in approximately 27% of heterosexual relationships, and in approximately 25% of lesbian relationships (Claire M. Renzetti, *Violent Betrayal*, 1992)
- Studies show that upwards of 85% of males in the prison system have been victims of sexual violence (<http://incestabuse.about.com>., "Male Survivors:")
- According to a study in the Journal of the American Medical Association, women are responsible for one-third of the sexual abuse of boys (*JAMA*, Dec. 2, 1998)

Unlike men, women who sexually abuse boys are less likely to use threats, violence, or intimidation on their victims. They generally have fewer victims than male offenders, and can go years between victims. They also generally have a long-term established relationship with their victims - that of mother or stepmother, sister or other female relative, babysitter/caregiver, or teacher. While the relationship between a female abuser and her victim may be less physically violent, the effect on the abused child is no less devastating.

We as a society are all focused on protecting and nurturing our children, but we need to stop thinking that our sons are "tougher" or "stronger" or somehow less in need of love and care than our daughters are. We need to be just as aware of what is happening to our young males, and the dangers that they may face, as we are of our young women. We need to talk to them, to listen to them, and to believe them when they tell us that they have been harmed in any way.

Helpful Water Hints

(TO HELP MAINTAIN POTABLE WATER)

FAQ: Bacteria such as e.coli and total coliform can harbor inside your screened taps. To prevent bacteria from harboring, soak your aerators in javex and remove all debris from the inside of the screen.

FAQ: Water storage tank/cisterns can become contaminated. You should have your water tested to ensure its safe. Instructions can be provided to help you clean your tank/cistern if required.

FAQ: Used or soiled dish clothes can contain bacteria. You should never wrap a used dish cloth around your tap or have it near the aerator. This can cause the bacteria to spread into your tap.

FAQ: Animals that have access to *drink* the water directly from the taps can also cause bacteria growth in the faucet. Never allow an animal to *drink* directly from the tap or sinks.

FAQ: If you are reusing drinking water containers, disinfecting is essential. Bacteria could potentially build up if containers are not cleaned frequently.

FAQ: Water coolers should also be cleaned with javex at least twice a year to prevent bacteria growth. Instructions can be provided if requested.

For more information please contact Crystal Maracle or Liz Brant @ 396-3424.

To those who have participated in the Hydrogeological Study

The Hydrogeological Study has been on-going by XCG Consultants since summer of 2004.

The study is finally coming to a successful end with the last part of the study being a pumping/monitoring test of the aquifers.

Those who agreed to participate in the pumping test gave up using their water anywhere from 6-24 hours for XCG to monitor the water levels. We understand how frustrating this was especially in the winter season.

Our sincere appreciation goes out to you and your families.

XCG Consultants will be compiling all data collected and have the final report for early March 2005.

If you have any questions regarding the study please feel free to call

BREASTFEEDING CIRCLE

"I'm breastfeeding but I've thought of using formula for some feedings. Is that safe to do? I've heard recently some formula is contaminated with a bacteria. Is it true and how serious is it?"

Yes. Powdered milk-based formulas recently tested from 35 countries, including Canada, were contaminated with Enterobacter Sakazakii, Salmonella and other disease causing bacteria. The FAO/WHO (Food and Agricultural Organization / World Health Organization) has issued warnings that powdered infant formulas are not sterile and that "It seems not to be possible, using current technology, to produce commercially sterile powders or completely eliminate the potential of contamination". E. Sakazakii is of special concern. It is present in the formula factory environment, is highly virulent (powerful), heat resistant, and capable of surviving the processing of powdered formulas. In its Winter 2004 newsletter, INFACT Canada reported: "Cases of meningitis, deaths, and serious illness with long term consequences, traced to contaminated formula, have been reported from the US, Canada, the Netherlands, Belgium and Iceland."

The most recent updates were last month (Dec.04) about babies dying in France & New Zealand, & about numerous outbreaks in neonatal units. Powdered formulas being sold in Scotland were found to be contaminated with E. Sakazakii at the rate of 4 out of 5 cans.

All of the formula available in Canada is imported from formula companies in various other countries.

Adding powdered "human milk fortifiers" to a mothers' own pumped milk for her premature baby is a common but controversial practice in some neonatal units. These also are not sterile products and can be contaminated, as they are made by formula companies and prepared in the same factory environment.

TOPS CHRISTMAS PARTY

Shown in this picture are several Tops members. The occasion was our Christmas Dinner held at the Elders Lodge, Dec. 2, 2004.

Pot luck was the menu and everyone brought a favorite recipe or a new dish to fit within our "nutritional" but "sumptuous" eating guidelines.

Dinner was followed with a Christmas Carol sing along, poems and other readings, a fun Christmas crossword puzzle, social conversation and a small gift exchange.

At Tops we not only give support to one another in our goal to Take Off Pounds Sensibly BUT we have fun too!

CALL-OUT TO ARTISTS

The Tree of Peace Society is a non-profit organization located in Akwesasne, NY. The purpose of our organization is to encourage cultural and environmental education based on the Haudenosaunee principles of the Great Law of Peace. We do this in many ways such as workshops, speaking engagements and tree plantings through-out the United States and Canada, as well as overseas on occasion.

As a non-profit organization, funding is only received through donations from individuals, as well as other organizations and funding sources. To develop many of the programs we feel are needed in our communities, more funds must be generated to accomplish our mission and goals. The fundraiser we have planned will be an online artist gallery and auction.

We have had the pleasure of coming in contact with talented artists within our community and throughout our travels who utilize traditional and non-traditional methods of expression. We have also come across people that are interested in Indigenous art work. We would like to connect the art collectors with the artists by creating an online art gallery and auction.

We are currently seeking artists who can provide work in the following areas:

- PAINTINGS
- SCULPTURE/CARVINGS
- TRADITIONAL BASKETS
- BEADWORK
- JEWELRY
- POTTERY
- FASHION
- MUSIC

DEADLINE TO SUBMIT WORK IS FEBRUARY 20th, 2005

We aren't limited to these areas, we will consider featuring other artistic mediums and look forward to promoting all interested artists with our online artist gallery and auction.

For more information and details on the online art gallery and auction you may contact us at: Email: treeofpeace@earthlink.net
Phone/Fax: 518-358-2641 (9 am - 3 pm)

You may download the artist gallery and auction informational packet from our website or for more information on the Tree of Peace Society you may check out our website at: www.treeofpeacesociety.info

Tyendinaga's Communities in Action Fund

The Recreation Department has received approval for the project Tyendinaga's Communities in Action Fund for the amount of \$13,420.

This funding will cover registration fees and supplies for 36 youth to take part in beavers, wolf cubs and scouts. Also for 20 youth to take part in the Canskate, Canpower skating program, as soon as its setup by the skating program. Nia:wen to the parents and leader volunteers for the time with this positive learning project.

Break open tickets

We now have break open tickets available to support any sport initiative and we appreciate the Administration staff and community people that have come in and purchased tickets, **thank you for your support.**

FREE Basketball nights

Tuesday night from 8:30 to 9:30 the QMS gym is available for anyone

over sixteen to just have fun . Friday night is available for families to come out and have some basketball fun from 6:30 to 8pm. Nia:wen to Brian and Eric for helping out.

Check the newsletter for other great physical activity nights.

Muffin Monday or Top Tuesdays

Another winter food fundraiser, you might smell the delicious aroma if you go to the Administration Office on a Monday or Tuesday. The muffins are only a loonie and proceeds go towards sports again. The muffins are made from scratch and are in the kitchen to purchase.

If the muffins are made on a Tuesday only the tops are made for half the price. Nia:wen for the support again from the Administration staff. The proceeds from the last 3 weeks is \$21.01, also nia:wen to Greg General for the donation of five dollars to start the fundraiser. Every cent is greatly appreciated when it helps promote a healthy lifestyle.

BIG BIKE

The Heart & Stroke foundation has reserved our spot for the big bike to come to Tyendinaga Saturday June 25 at 10am same spot as last year (Bayview Variety)

Registration is open now for anyone to sign up to ride the bike, please call before April 30 so we have time for pledges and to reserve your special seat on the bike

ONTARIO ARTS COUNCIL
CONSEIL DES ARTS DE L'ONTARIO

Food, Fiddling Fun and Family Dance at the Tyendinaga Community Centre

Friday, February 18th, 2005 at 6 p.m.

You're invited to join Kanhiote Tyendinaga Territory Public Library and renowned fiddlers Anne Lederman and Tom Leighton and square dance caller Bill Russell for a special First Nations Public Library Week celebration. Experience the fun of fiddling music, square dancing and step dancing that were, for many years, a feature at house parties and community events like weddings and Mohawk Fair. Enjoy some corn soup, take the floor for square dancing or step dancing or just come to listen to your favourite tunes played by a master fiddler. A fun event for the whole family.

Quinte Mohawk School hosts Anne Lederman on Friday, February 18th, 2005 as she gives a fiddle concert to all the students and Grades 4 to 6 learn some square dances and have a Harvest Hoedown.

These programs are part of an intercultural programming pilot project facilitated by Mpiposa in the Schools and the Southern Ontario Library Service with the generous funding support of the Ontario Arts Council's Touring Office.
