ASSEMBLY OF FIRST NATIONS/
NATIONAL INDIAN BROTHERHOOD

July 7, 1992

Dear Chiefs;

RE: A Call To A National Rally
Parliament Hill July 15, 1992

In response to a Resolution that was passed at the 13th Annual Chiefs Assembly in Fredericton, New Brunswick on June 23-25, 1992, I am calling for a **National Rally** in support of our Constitutional efforts to Protect First Nations Rights. It will be in Ottawa at Parliament Hill on July 15, 1992.

This is the same day that the Prime Minister has recalled Parliament. What the Parliament will be asked to consider will be determined by events this week and the results of a First Ministers Meeting on the Constitution tentatively scheduled for July 11-12, 1992.

During the last four months, we have come a long way towards including First Nations People in the Circle of Confederation. We have been constructive, flexible and positive on all fundamental constitutional issues. Despite the fact that the constitutional process has benefitted from our participation, there is the possibility that several Governments will try to back out of their promises to us.

We know that a Constitutional Process with our full and equal participation holds the greatest potential for a national consensus that is honourable, just, comprehensive and lasting.

We need your continued support, so please join the Assembly of First Nations and the Canadian Public in a rally to support our Human, Aboriginal and Treaty rights, our participation in constitutional change, and to hold Governments to their promises.

Ovide Mercredi
National Chief

Dear Ken:

My name is Hersh Spiegelman. I'm a practising Chartered Accountant living near Toronto and have been in business for 15 years preparing financial statements and tax returns.

I'm contacting you because of the recent decision by the Supreme Court of Canada in the Glen Williams case. This case decided that unemployment insurance benefits received by Reserve Indians were not subject to income tax in certain situations:

Due to this case Reserve Indians in the future should find their U.I. benefits noticeably larger since income tax will no longer be withheld.

THIS DECISION ALSO MEANS THAT those individuals who had received U.I. benefits in the past (where the tax was already deducted and withheld) can now refile their personal income tax returns all the way back to 1985 and be entitled to receive a refund of all taxes withheld. The government will also pay you interest back to 1985. In other words even if one has already filed a personal tax return any time between 1985 and 1991 and received a refund at that time, YOU MAY REFILE AGAIN AND POSSIBLY RECEIVE A LARGER REFUND.

I represent an income tax recovery company, and we wish to offer our services to assist in refiling tax returns for everyone who might be affected on your Reserve. We have had a significant amount of experience in the income tax field and although refiling can be a technically complex exercise, we are confident we can handle it quickly and efficiently.

Please review the contents of this letter carefully. I would be more than happy to further discuss this situation and our involvement in handling the tax refiling. I look forward to your call.

Yours truly

Hersh Spiegelman C.A.

Poison Ivy and Poison Oak

You may remember the old saying “Leaves of three, let it be.” It’s a reminder that poison ivy and its cousin poison oak consistently have three leaves. But beyond that these plants can vary tremendously—which is why many people don’t recognize them and end up in misery each year. They can grow as woody vines or shrubs. The leaves can be dull or glossy, from one to five inches long, and have edges that are saw-toothed, lobed, or smooth. Though usually green, in autumn they can turn yellow or pink; in spring they often bear small green or white flowers that mature into berries in late summer.

The plants are widely distributed. Poison ivy grows throughout the United States except California, which is where one type of poison oak is concentrated. Another form of poison oak grows in the southeastern states. In damp areas like swamps or bogs, you may encounter poison sumac, a small tree or shrub related to poison ivy that has seven to eight leaflets on each stem.

People who think they’re immune to these plants are usually inviting trouble. Often people aren’t affected after their first or second exposure. But four out of five become sensitive after several exposures to urushiol—the chemical in the oil secreted by these plants—which causes itching and burning along with a red, blistering rash. Usually the rash begins a few hours after exposure, but it may not appear for several days. And you need not touch the plant itself. Urushiol is extremely hardy, and brushing an object that was contaminated months before can cause the rash. In addition, dogs and cats that have brushed against the leaves carry the irritating oils on their fur, and may transfer it to you.

Preventive steps

If you walk or hike through the woods where these plants grow, wear clothing, including gloves, that protects your extremities. Always wash the clothing afterward. If your shoes might have touched a plant, sponge them off. And if you find poison ivy on your property, don’t burn it; this allows the urushiol to become airborne and can cause severe allergic reactions all over your body. Dispose of plants in sealed plastic bags, or kill them with a herbicide and then bury them.

Treating poison ivy and poison oak

If you think you’ve been exposed, wash your skin thoroughly within minutes, using plenty of cold water. Don’t use soap, which can spread the oil. If a rash develops, don’t scratch it; scratching won’t spread the rash, nor will breaking the blisters (the fluid inside doesn’t contain allergens), but excessive scratching can

lead to infection. To relieve the itch, try compresses soaked in cool water. Calamine lotion, baking soda, and hydrocortisone cream can also be soothing.

"CATCH THE FUN"

TYENDINAGA MINOR LACROSSE

On June 27th our Beaver Lumber Peewees travelled to Orillia to play in their first tournament. The first game (which was also the first game the kids had ever played) was against a very strong Clarkson team. They beat us 15 to 2 but we gained a lot of experience. Goals were scored by Andrew Follwell, assisted by Mathew Brant, and Feather Brant, assisted by Angus Brant.

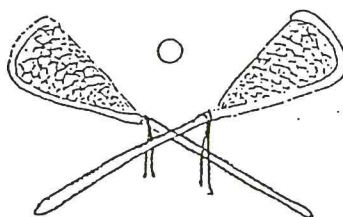

Orillia defeated us in our second game with a score of 9 to 4 but our team showed much improvement using the experience they gained from the first game. Goals were scored by Terry Maracle, assisted by Shawn Storms and Richard Johnston, Andrew Follwell, assisted by Dehwah Maracle, Richard Johnston, assisted by Mathew Brant, and Feather Brant, unassisted.

On July 4th they travelled to Markham for another tournament. They were defeated in their first game against Huntsville by a score of 17 to 0.

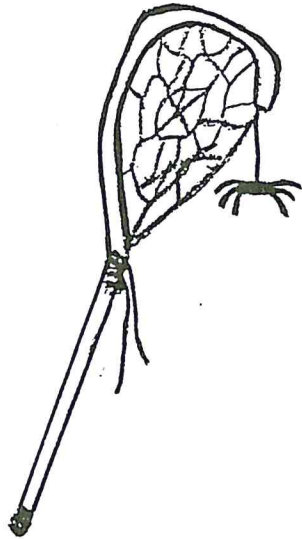

Their second game against Pelham was a fast paced, nail biting game with our team winning 2 to 1. Goals were scored by Mathew Brant, unassisted, and Kevin Brant, assisted by Joshua Brooks. Angus Brant was outstanding in net.

We moved on to our third game against Midland. The team played another outstanding game but were defeated with a score of 5 to 1. The goal was scored by Terry Maracle, assisted by Angus Brant who had another great game in net.

The team keeps getting better and better with each game they play and we are very proud of them for giving it their best shot every time. We know they will make a good showing in their next tournament which is in Gloucester July 10, 11 and 12. Good luck team!!!!

MOHAWK 4-H Club

On Thursday July 2nd, the Mohawk "True 2 Moo" 4-H Calf Club went to Stirling to a Fitting and Showing Day. First off we got to know the other 4-H calf members from other clubs in Hastings County. They split us up into three groups.

There was a calf clipping group. The man showed us how to "give your calf a haircut" before showing day. The next group was judging dairy cows. We learned what to look for which might help in judging them. Some things such as straight backs, fat tummies, straight legs, good height and other things also. Then we had lunch, and got free milk and ice cream. Yum! The last group was about leading our calves in the show ring. The man told us to make sure the calves feet are straight and the back is straight when stopping.

After everything was done, the host, Dwayne Redden gave all the new members calf halters. So that was our day. If you are interested in seeing our calf club, we will be leading our calves at the Mohawk Fair on the track, sometime after the parade.

TIMELESS COHESION

*There was a time
A young man in love
Desired a son
He could speak of
(With love and pride)*

*We had two daughters
Who gave him joy,
Still he fervently longed
For a little boy
(Spoke lovingly of a little boy)*

*He carried the hope
This would be so,
Never knowing how soon
He was to go.
(On this plane his life is o'er)*

*A little girl yearns
For a dad long gone,
Screams out his love
When things go wrong.
(This road we travel)*

*Can be so long, she matures
Finds love that's strong,
Gives him not one
But two "grand" sons
(From true reality)*

*He senses and knows
And feels this love
Reciprocates
Somewhere above
(Reciprocates somewhere above)*
