ATTENTION: Chief R. Donald Maracle

RE: Turton Penn lease Area
Krippendorff Property, Parcel # 35B

In follow-up to your recent request regarding the above noted topic, please be advised of the following information.

This will reconfirm that Public Works Canada has acquired Parcel # 35B within the Turton Penn lease area on behalf of the Department of Indian and Northern Affairs Canada. In accordance with the Turton Penn Lease Memorandum of Understanding, vacant possession of the land including leasehold improvements was returned to you on July 13, 1993. All pertinent property transfer documents and environmental transfer assessment were provided on August 13, 1993.

This will also reconfirm that agreement was reached on November 2, 1994 with you and Council to have the house, located on Parcel 35B, demolished and removed at INAC's expense. The reason for demolition was due to the general dilapidated condition of the house and the UNSAFE structural integrity.

Public Works Canada will be managing the demolition and removal of said structure within the next 2 - 3 months. Should the house in fact be occupied at the time of demolition it will be Council's responsibility to take appropriate measures to have any occupants removed. The District Office will continue to work cooperatively with you and Council and provide ongoing support and assistance within the authorities of this department.

USE OF MOHAWK BUSES

Please note that a policy has been established for the use of buses from the Tyendinaga Mohawk Territory.

The costs for use is the major revision. This revision was necessary in order to cover all the costs of the bus: maintenance, insurance, wear and tear on the buses. The Busing Program can no longer assume the costs of the extra uses for the buses.

The Rentee is responsible for the bus driver's salary, meals, accommodations, entry fees to events; bridge fees, toll fees, parking fees; re-fueling of bus and mileage based on a rate of \$0.50 per kilometre.

Please see the Front Desk, Carole Scero or Art Brant for application forms or to request a copy of the policy.

An application form must be completed before a bus can be rented.

Thank you.

GARY FARMER JOINS BOARD OF ONTARIO ARTS COUNCIL

Toronto, June 16, 1995 -- Actor and publisher Gary Dale Farmer has joined the board of the Ontario Arts Council (OAC). With extensive experience in film, television, theatre and radio, Farmer is also a producer, and editor-in-chief of the magazine *Aboriginal Voices*.

151, rue Bloor ouest
 Toronto (Ontario) M5S 1T6
 Téléphone (416) 961-1660
 Télécopieur (416) 921-8763
 Sans frais 1-800-387-0058

"We are particularly pleased to see Gary Farmer on the board which has become more representative of the arts community including a broader cultural make-up," says OAC chair Paul Hoffert. "It is important that OAC's board reflect the continuum from the not-for-profit to the commercial arts sectors which form part of Ontario's cultural fabric. Gary is not only a very successful performing artist, but he understands the importance of giving back to the community."

Farmer can be seen in several films currently in theatres throughout North America: *Henry and Verlin*, *Tales from The Crypt*, *Demon Knight* and *Powwow Highway*, which won the Best Film Award at the American Indian Film Festival where Farmer also won an award for Best Actor. He recently completed the feature film *Dead Man*, directed by Jim Jarmusch and co-starring Johnny Depp.

Farmer started on stage in 1976, working almost exclusively in theatre for the first eight years. Some of the Candian plays in which he has appeared include: Michael Hollingsworth's *Village of the Small Huts*, Elaine Coleman's *Blue City Skies*, and the 1989 and 1990 productions of Tomson Highway's *Dry Lips Oughta Move to Kapuskasing*, which amassed seven Dora Mavor Moore Awards in 1989, including a Best Actor nomination for Gary's performance.

FARMER APPOINTED TO OAC Cont'd
June 16, 1995

Page 2

As Farmer learned about the strength of acting and its empowerment, he became fascinated by media, especially in its implications for his own people. Born on the Six Nations Reserve near Brantford, Ontario, on June 12, 1953, Farmer is a Cayuga of the Wolf Clan. "I grew up with a strong political sense of who I was, but not a strong cultural sense. I became tremendously concerned about the survival of indigenous culture and aboriginal language. Knowing what I missed compelled me to help Indian media stand on its own. This is what pushed me into producing for radio and television as well as into publishing."

Farmer was particularly drawn to radio, because it was inexpensive to produce. Having already performed in many radio dramas, he produced and directed *Jenny's Song*, a radio drama about AIDS for the National Native American AIDS Media Consortium and *Sugar Blues, Too Many Diabetic Indians*, for broadcast on native community radio stations in North America.

Since 1989, Farmer has served as speaker and lecturer on Native communications and related subjects, including: literacy, environmental advocacy and community activism. In his new OAC role, Farmer advocates, "the work of our native artists and other artists needs to be made more broadly available to communities outside urban areas, to help people gain cultural understanding and a sense of themselves."

OAC's 12 volunteer board members are appointed from communities across the province by the Lieutenant Governor in Council for a three year term. They are responsible for ensuring that OAC's grants are awarded in a fair and equitable manner and that its policies reflect current needs and community concerns. OAC is an agency of the Ministry of Culture, Tourism and Recreation.

ABORIGINAL CULTURAL AWARENESS COORDINATOR

Queen's University

Queen's University at Kingston is seeking an individual to coordinate a project to promote institution-wide sensitivity to Aboriginal peoples and cultures and to explore ways of appropriately integrating Aboriginal issues into classroom teaching.

Responsibilities: Reporting to the Director of Queen's Instructional Development Centre and to the Queen's Aboriginal Council, the coordinator may arrange for evening lectures by Aboriginal people, develop workshops and arrange for individual consultation with course instructors, and advise the University on long term strategies for integrating Aboriginal issues into the curriculum. An important component will be developing networks with Aboriginal people to participate in ongoing curriculum development.

Qualifications: Applicants must be of Aboriginal descent. The ideal candidate would have a background in Native studies (e.g. B.A. or M.A.), have qualifications or experience in education or course planning (e.g. Degree or certificate in Education or relevant experience), and have a wide network of contacts among Aboriginal people and organizations.

The position is a part-time appointment for 12 months, 20 hours per week, at an annual salary of \$23,712 plus benefits.

Please send applications by July 28, 1995 to:

Dr. Christopher Knapper
Instructional Development Centre
Queen's University
Kingston, Ontario
K7L 3N6

Queen's University has an employment equity program, welcomes diversity in the workplace, and encourages applications from all qualified candidates, including women, aboriginal peoples, people with disabilities, and racial minorities.

If you require further information about the position you may call (613) 545 6428.

Benefits by start day of workshop.**

ABORIGINAL BUSINESS VENTURES PROGRAM

The Ohwistha Capital Corporation has been approved and authorized to deliver the Aboriginal Business Ventures Program. We will process, give final approval, disburse and administer the loan directly from our offices.

This program is designed to assist residents 18 years or older, with a valid Social Insurance Number in starting or expanding a business on their First Nation. The loan is a personal loan guaranteed by the province of Ontario of up to \$15,000 for a term of five years. In the first year you repay interest only at the rate of prime plus 1% on the loan amount. In the second year, you begin to pay down the loan based on a negotiated repayment schedule. You must make a equity contribution equal to at least 50% of the loan amount with your own cash equity of at least 10% and the remaining 40% can come from other sources such as equipment, Band or Agency loans or grants. This works out to \$1,500 of your own money as equity and \$5,000 from other sources.

For further information or applications please contact the Ohwistha Capital Corporation at 613-933-6500 or visit our offices on Cornwall Island, third building east of the crossroads.

FROM THE QUINTE MOHAWK SCHOOL COMMITTEE:

The Quinte Mohawk School Committee is presently accepting applications to fill a vacant position.

If you are interested please fill out the application attached and return to **Adminstration Office** Att: Doug Maracle (School Committee) before **July 27/95 at 4:00 P.M.**

Activities & Information from the CHR Program

July is.....

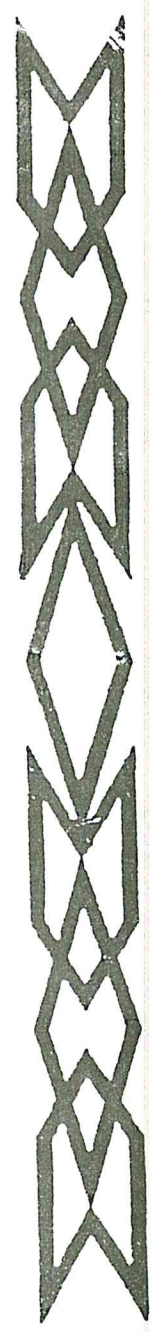

WELLNESS

Taking Charge of Your Health

Wellness is more than not being sick--it's an approach to health that aims to reduce your risk of serious illness. Why wellness? Because the way we live has a lot to do with our health. Unhealthy lifestyles can cause life-threatening conditions such as heart disease, cancer, diabetes, and stroke. Yet 80% of these "lifestyle diseases" can be prevented. By recognizing and reducing your health risks, you can start making wellness a way of life. Native people traditionally practiced a wellness way of life as shown in the principles listed below.

TRADITIONAL INDIAN PRINCIPLES OF HEALTH

1. Good health is a gift from the Creator.
2. When we show respect for ourselves, our bodies, and our health, we show appreciation of the Creators gifts.
3. Good health is ours when we live in a balanced relationship with the Earth and the Natural World.
4. Since the coming of the white man, we have forgotten many of our ways. If we are to survive, we must put the first three principles into practice daily.

BE SUN SMART

Skin cancer is a killer and it's on the increase. You need to protect your skin from the sun every day, all year round. Here are some facts to keep in mind:

B Babies under one year should be kept out of direct sunlight to protect them from sun damage and also to prevent dehydration and sunstroke. Keep them protected in a covered stroller, under an umbrella or in the shade. **DO NOT USE A SUNSCREEN ON BABIES UNDER SIX MONTHS OF AGE.**

E Even on cloudy days, you still need protection. Up to 80% of the sun's rays can penetrate light clouds, mist and fog. Eyes need protection—wear sunglasses that filter out UV rays.

S Sunhats with a wide brim (3" wide on all sides), long-sleeved shirts and pants offer excellent protection.

U UVA rays—ultraviolet rays that contribute to skin aging, wrinkling and probably development of skin cancer. UVB rays—ultraviolet rays that give you a sunburn. **CHOOSE A SUNSCREEN THAT STATES IT SCREENS OUT BOTH.**

N Never use baby oil as a sunscreen. The oil will intensify the effect of the sun and cause you to burn faster.

S Sunscreen with an SPF of 15 or higher is recommended. Apply it to all areas exposed to the sun, paying particular attention to ears, nose and upper foot area. Re-apply often especially after swimming or perspiring heavily. If possible apply sunscreen 30-45 minutes before going out in the sun.

M Medications can cause an adverse reaction to sunlight. Be sure to check with your Dr. about any side-effects which may occur when exposed to the sun.

A Avoid the sun between the hours of 10:00 a.m. and 3:00 p.m. as this is the time when the sun's rays are most intense.

R Remember, reflected light off water, concrete, snow and sand can cause serious sunburns.

T Teach your children sun safe habits and set a good example yourself. If we encourage sun safety in our children, it will be easily accepted as part of their lifestyle.

Distributed by your Public Health Nurse, Healthy Children Program, Hastings & Prince Edward Counties Health Unit. For more information on SUN SAFETY, contact: Belleville 966-5500, Trenton 394-4831, Picton 476-7471, Bancroft 332-4555 or Madoc 473-4247.

SUNSCREEN

FACT SHEET

25

- Skin is exposed to natural ultraviolet rays from the sun and artificial ultraviolet rays that are emitted by sunlamps and tanning parlour equipment.
- There are two different types of ultraviolet rays that can damage skin: Ultraviolet A (UVA) and Ultraviolet B (UVB).
- UVB rays which penetrate the outer most layer of the skin causing sunburn, are known to cause cancer.
- UVA rays penetrate even deeper into the skin, producing damage that can not be seen or felt. These rays can cause skin to age prematurely and may suppress the immune system and cause cancer.

What is a Sunscreen?

- A sunscreen is anything that protects the skin from ultraviolet rays.
- Skin can be protected from UV rays by using an umbrella, wearing a hat or clothing.
- There are also oils, lotions and creams which are formulated to protect skin from ultraviolet rays. These include:
 - Sunblocks which create a barrier that reflects ultraviolet

light, e.g. zinc oxide or titanium dioxide.

- Sunscreens which absorb the ultraviolet rays and prevent penetration through the skin, e.g. PABA and its derivatives, benzophenones, cinnamates, dibenzolymethanes and salicylates.
- Quick tanning products (in lotion or capsule form), which give your skin a tanned colour, do not protect the skin from ultraviolet rays.

What is S.P.F.?

- S.P.F. stands for the Sun Protection Factor contained in a sunscreen. S.P.F. refers to the ability of the product to protect skin from burning.
- S.P.F. is calculated under laboratory conditions and is a

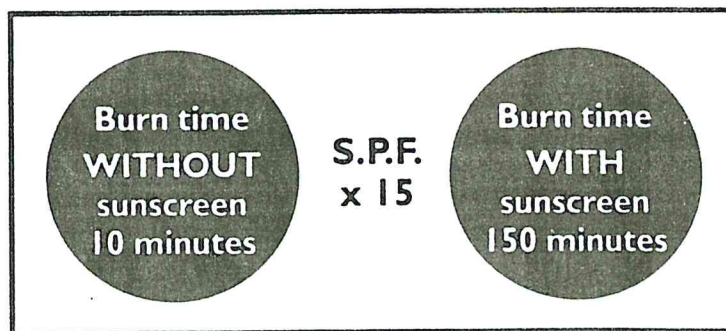

guide to the amount of protection from ultraviolet rays that is provided.

- The higher the number of the S.P.F., the more protection your skin receives and the longer you are able to stay in the sun before burning or seeking cover.
- For example, if it normally takes 10 minutes for skin to become reddened without protection, an S.P.F. of 15 would provide 150 minutes of protection from burning.
- An S.P.F. of 15 blocks over 92% of the UVB rays.
- Skin may still tan even when using a sunscreen since all chemical sunscreens allow some ultraviolet rays to penetrate.
- Repeated applications of the sunscreen will not provide extra

protection for longer exposure. However, if your skin has become wet through swimming or perspiring the sunscreen can and should be reapplied to offer renewed protection.

How to Choose a Sunscreen

- Although sunscreens may have an S.P.F. ranging anywhere from 2 to 50, the Canadian Dermatology Association and the Canadian Cancer Society recommend an S.P.F. of 15 or higher.
- Those with skin that has a tendency to burn should use a sunscreen with a higher S.P.F., i.e. fair-haired and fair-skinned people. The more likely you are to burn, the higher the S.P.F. you need.
- Read the ingredients listed on the sunscreen label carefully and make sure that the product offers both UVA and UVB protection.
- Consult your doctor or pharmacist for help in choosing a sunscreen.
- When applying a sunscreen, follow the manufacturer's recommendations.
- Look for the Canadian Dermatology Association's seal of approval.

MOCCASIN TRAIL NEWS

Greetings Community! Guess What? The Moccasin Trail Walking Program is One year old this month. Yes it was July of 1994 that the walking program was implemented. Now one year, 55 members and more than 3,000 miles later we are a healthier community .

Can anybody remember what our main motto was in the beginning? No, this is not a test. The answer is "TAKE CHARGE OF YOUR OWN HEALTH", don't wait for the doctor to fix you. WE all have choices to make in this life, choose the positive one, CHOOSE TO BE HEALTHY. What's the magic formula? WALK OR MOVE A LITTLE MORE + EAT HEALTHY + POSITIVE ATTITUDE. Don't let it be said that you look after your pets or your car better than your own body. You owe it to yourself, your family, and your community. Now here's the plug.....JOIN THE MOCCASIN TRAIL WALKING PROGRAM, we can help with those healthy choices, monitoring your blood sugar ,blood pressure, and encouragement on your healing path. Call the Thayendanega Health Centre for more information at 967-3603.

NEXT MILEAGE DAY IS TUESDAY AUGUST 1ST, 1995
8:30 - 7:00PM

~ Pamphlets are available on the different aspects of farm safety. If you would like a farm safety package, phone Thayendanege Health Centre and ask to speak to someone in the CHR Program.

VOLUNTEER MOVIE REVIEWERS NEEDED!

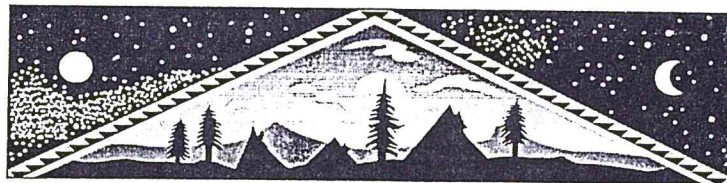

Seen any good movies lately?

CKWE is looking for young people (all elementary grades) to give movie reviews of rental or theatre films. Movie reviews will be taped, properly credited and played several times over the air.

All movie reviews should be rated on a scale of 1 to 10 popcorns, giving reasons for the rating. Include the warning of scary parts (if any).

Interested parties please call CKWE at 967-0463 between 9 am and 4:30 pm on weekdays.

Once again the Youth Group season has come to a close.
We the Thunderbirds would like to remind everyone
to keep themselves safe and happy throughout the summer.

Special thanks to Jeff Hill, Kerri Alexander, and James Kunkel
for the time and effort they put into the group this past year.

The year end trip to Wonderland was a blast
Although it rained cats and dogs all day the youth had fun
wearing out the chaperones. We thank all those who volunteered
for being such good sports in the rain.

"This was the first time in my life ever having 10 showers in one day,"
commented one volunteer.

IROQUOIS INDIAN MUSEUM

P.O. Box 7, Caverns Road
Howes Cave, NY 12092
518 296-8949

JUN 12 1995

May 30, 1995
Contact: S. Shultes
For immediate release

NEWS RELEASE

The Iroquois Indian Museum in Howes Cave, New York opens a thought provoking new exhibit entitled "Iroquois Art in the Time of Casinos" Saturday, June 10. Iroquois artists have chosen to address this theme in a variety of ways - distilling in paint, clay, and stone the smoldering struggle within their nations. From subtle to satirical it is the artists themselves who have determined the script, the museum has simply provided the stage.

Artists Alex Jacobs, Richard Danay, Vince Bomberly, Albert White, Sue Ellen Herne, Shelly Niro, Tammy Tarbell, Peter B. Jones, Trudy Shenandoah and others are represented in this timely and explosive examination of the most controversial issues facing Iroquois today. A four-part series of rousing discussions between artists and anthropologists will pose the questions: Can wealth from gambling and tax free sales be made compatible with traditional Iroquois culture? What is the role of the artist in these times of turmoil?

The public is invited to join artists and museum members at a 2:00 pm. opening. At 3:00 pm. the first of the discussion

continued page 2

page 2

series will begin. Peter B. Jones, Onondaga clay sculptor from Cattaraugus Reservation and anthropologist, Dr. John Ferguson will provide a stimulating analysis of these sometimes angry, impassioned and even humorous, political statements.

The exhibit and accompanying discussions were curated by Seneca artist, Linley Logan and Museum Curator, Stephanie Shultes. The exhibit, funded in part by the New York State Council for the Arts, will run through September 5. The Iroquois Indian Museum is open 10:00 - 5:00 daily and located at exit 22 (Cobleskill/Middleburgh) just off Interstate 88. For additional information, please call 518-296-8949.
