MBQ Water Monitoring Schedule Is Back

The Mohawks of the Bay of Quinte Drinking Water Safety Program would like to announce the new schedule for water sampling collection. With the introduction of an area specific schedule in January, the program saw a large increase in community participation and engagement resulting in a substantial number of community members having their water quality tested and access to valuable information about their water.

Date/Month	November	December
1st to 15th	Beach Road Snookies Road Queen Street Atsia Court Shannonville Road Tom's Road Young Street	Highway 49 Bell's Road Mowbray's Road Old Highway #2 North Church Lane
16th to Month's End	Johnson's Lane York Road South Eli's Lane Old York Road	Milltown Road Norway's Road Mark's Road Upper Slash Road

Many of the homes in Tyendinaga require treatment systems using UV lights, chlorine, peroxide and other types of disinfection. With regularly scheduled water sampling, we can monitor whether these systems are operating effectively and that if you are consuming your water that it is safe to do so.

Health Canada recommends that you have your water checked **3-4** times per year and we are hoping that with the continuing level of participation we will be able to provide water sampling services for the community year round.

OUR MISSION
IN THE FACE OF CANCER AND ITS TREATMENT WE HELP WOMEN RECOGNIZE THEMSELVES

Cancer can rob you of your sense of self.
Suddenly you're no longer the mother, sister, daughter, or wife – you're "the cancer patient."
"Look Good Feel Better" *knows that the best medicine doesn't always come in a bottle – that's why the charity provides complimentary workshops that offer the tools and techniques to help women facing all cancers and all treatments feel like themselves again.*
What you'll experience at a two-hour ***Look Good Feel Better*** *session:*

- *Support from makeup experts on how to alleviate the appearance-related effects of cancer and its treatment, including cosmetic hygiene, sun care, skin care, cosmetics and nail care*
Discussion and demonstration on hair alternatives

Its more than just makeup – it's a safe and welcoming environment alongside other women dealing with similar issues and facing many of the same challenges.

We are looking for 15 women who have been diagnosed with cancer within the last year to participate in the Look Good Feel Better Workshop. You can find more information on their website and if you have any further questions and would like to sign up please call Hannah Hill or Crystal Maracle at the Community Wellbeing Centre at 613-967-3603

Welcome to Our New NNADAP Worker

She:kon and Hello All,

My name is Britta Gaddes, and I am the new NNADAP Worker for Mohawks of the Bay Quinte. I am so excited, happy and proud to be here!

I have worked for many years in the Addictions field in the Kingston and Prince Edward/Hastings area. I bring a wealth of knowledge about all aspects of substance use and its impact on people, their families and their communities.

I still have a lot to learn and am lucky to be surrounded by a community who has so much traditional and cultural knowledge. I have lived in Prince Edward County for 12 years. I am originally from BC, and am Plains Cree on my fathers side. I have a strong interest in learning about Haudenosaunee culture and look forward to meeting many of you when out in the community.

Gone But Not Forgotten

At 4:13pm as the room went silent
I knew that you had gone from me
No matter how much I begged you to stay
God had his plans and took you away.

I watched you suffer, I saw you die
But all I could do was sit close by
You went away, we had to part
God eased your pain but he broke my heart

My days are filled with emptiness
There's nothing left to say
The house is full of memories
That I treasure every day

God made the moon from angels wings
The stars from angels tears
He made so much for us to see
Why not an unbreakable heart for me?

Till We Meet Again
Love always and forever, Pat

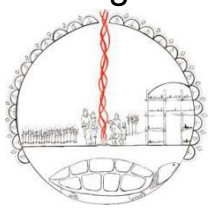
WHO NEEDS AN ANNUAL FLU SHOT? Anyone over the age of 6 months

WHY SHOULD YOU GET YOUR ANNUAL FLU SHOT? Your annual flu shot is the most effective protection from the flu.

Immunizations protect not only the people who get immunized but also the people around them.

When most of the people in a community have been immunized against a contagious disease, it greatly reduces the risk of an out-break. This is called **'community immunity'**. Community immunity protects newborns who are too young to be immunized, people who cannot be vaccinated for medical reasons (immunocompromised, organ transplants, cancer treatment, allergic reactions), and people with weaker immune systems, such as the elderly. For these groups, **'community immunity'** is vital.

Getting immunized, and immunizing your children, is not just about personal protection: it's also about community protection.



Working together to make Tyendinaga Mohawk Territory Flu Free!!

Thank You for Protecting yourself, Your Family and Your Community
