

Now is the time for CHANGE!

VOTE for KURTIS BRANT

Hello, my name is Kurtis Brant (Chip). I was born and raised here on the Tyendinaga Mohawk Territory, and I have enjoyed raising my children here. I am a husband, and father to 4 children and grandfather to 1 granddaughter. My parents are Bill & Norma Brant. My grandparents are Cameron and Helen Brant, and Percy and Eileen Green.

As a resident here all my life, I believe that I can contribute positively to this Community by being elected to Council.

Here are the changes that we should focus on:

- **Infrastructure and Economic Development**

Creating our own source revenue by building attractions like a cultural museum, and developing a revenue plan for the golf course that will benefit the Community. We need to focus on the expansion of the clean water project so more Community members benefit, and build a grocery store which would provide employment and help our members shop local.

- **Recreation, Education and Language Revitalization**

We need to create more opportunities for our youth and our elders to participate in healthy activities and organized sports by building facilities like a gymnasium with a pool and indoor walking track. We need to keep our Mohawk Language alive by supporting the current initiatives and creating new ones, as a Community. We need to offer more opportunities for those who want to be educated by ensuring that our current funding system for Education actually supports the needs of Community members.

- **Community Development**

Our Community is progressive and offers many great opportunities. We have supported each other through a Global Pandemic. We should focus on finding additional funding for new programs that help support our elders, children, youth, and our families in need.
