

NOTICE OF PRESENCE

LAKE ONTARIO MANAGEMENT UNIT CREEL SURVEY PROGRAM

HELLO COMMUNITY!

Please be advised the MBQ has been notified that the Lake Ontario Management Unit (LOMU) will be starting their Creel Survey Program this weekend in the boat pictured above. The LOMU staff will be approaching anglers to gain information on the fishing efforts on the Bay of Quinte and Lake Ontario. Participation in the survey is voluntary. Therefore, there is no obligation to participate. The information gathered is required to better understand our fish populations! The survey program will be ongoing throughout the summer until the end of the fishing season.

MOHAWKS OF THE BAY OF QUINTE

If you have any questions please contact the Environmental Services Supervisor
