

Notice of Presence

Department of Fisheries and Oceans Canada (DFO)

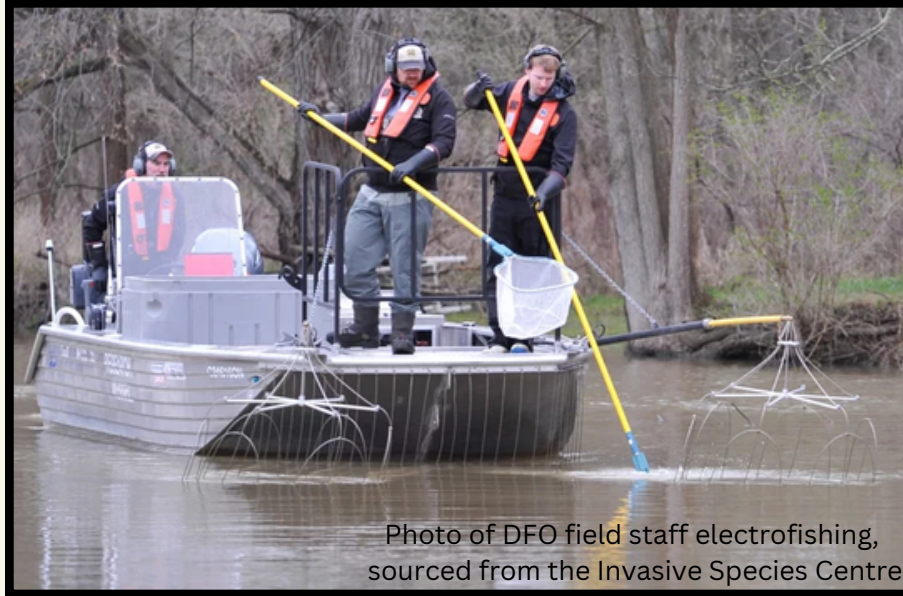

Photo of DFO field staff electrofishing,
sourced from the Invasive Species Centre

Hello Community!

Please be advised that the MBQ has been notified that the DFO will be conducting fish health assessments in the month of October in Bay of Quinte embayments. This work will contribute to understanding fisheries health in the Bay of Quinte and Lake Ontario. The DFO field staff will be doing electrofishing catch and release work at night which will have lights and beeping sounds associated with it. DFO will be sharing any reports generated with MBQ.

If you have questions please contact Megan Murphy
at 613-396-3424 ext. 125
