Construction set to begin November 13

Natural gas is coming to your community!

Construction for the Mohawks of the Bay of Quinte Community Expansion Project is expected to commence on November 13. Enbridge Gas estimates that approximately 17kms of pipeline will be installed and in-service by June 2024. Throughout construction, you can expect to see large trucks and heavy equipment from both Enbridge and our third-party contractors working in and around the community between 7 a.m. and 5:30 p.m.

Work will begin on York Road and is expected to remain in that area until the end of the year. Construction on the remainder of the project will commence in January 2024.

Service installations may begin as soon as January 2024 and any remaining restoration will be completed in the spring/summer of 2024 when weather permits.

Wildlife exclusion fencing was installed earlier this year. The purpose of this fence is to protect species in the surrounding area from entering potential construction zones. This fencing will be removed by the end of the year.

Are you interested in connecting to natural gas?

Enbridge Gas representatives are available to answer any questions you may have regarding the application process. Connect with us at ceapplications@enbridge.com or call our team at **1-833-356-2689**.
