

I'm Lily "Lou" Maracle, daughter of Amos and Anna Maracle, and grew up with my 12 siblings. I learned the importance of communication and compromise, without compromising my values.

I decided to run for council for multiple reasons. Communication needs to be up to date. Many times I have been told that information is on a website, but not everyone has access to the internet easily. My goal would be to keep community members updated and be transparent about what is happening with the Council and decisions that affect us all. We need input from band members which extends beyond TMT. I would be willing to update a

community information board personally to ensure that everyone is informed as much as possible.

Another issue I'm passionate about is providing care to our Elders within our community. They are the ones who have taken care of us, and they need us to take care of them now. Providing adequate support and care should be a priority. As one grows older, this is an issue that will greatly impact each and every one of us.

I would like to be a voice for you in a Council that works effectively and with accountability. I believe that change has to begin somewhere. I'm ready to do what I can to accomplish goals, work with and for our community to move forward. Thank you for your support at this election!

Lily "Lou" Maracle
