

Planned Power Outage

Wednesday, October 30, 2024

Please be advised that due to the CWC Expansion Project, there will be a planned power outage affecting Meadow Drive on Wednesday, October 30. The outage will begin at 9 a.m. and is expected to last between 4 and 7 hours. This will affect all buildings on Meadow Drive.

The Administration Building and Community Wellbeing Centre will be **CLOSED** all morning, and will re-open once hydro has been restored. It is important to note that critical services like fire, police and ambulance will be serviced by generators and home care services will continue as normal during the outage.

As timing for power to be restored to Meadow Drive is currently unknown, please stay tuned to our website and social media for an update once hydro is back up and running at the Admin Building and CWC.

Nyá:wen for your understanding.
