

Community Survey on BUI Importance and Effectiveness

Western 

Who am I?

Shé:kon! My name is Makayla Roy and I am a status First Nation Mohawk from Tyendingaga. I graduated from uOttawa with a Bachelor's in Biomedical Science and am currently doing a Master's of Health Equity and Sustainability at University of Western Ontario.

Working for MBQ Environment I quickly realized the inequitable influence MBQ holds in regional environmental decisions. As part of my research I wanted to shed light on this issue through a Health Equity Impact Assessment. Your participation in this survey can help do that!
