## Government of Canada Supports Maintenance at Briar Fox Golf Club

**June 19, 2026** – Briar Fox Golf Club is thrilled to announce additional improvements to the course thanks to Government of Canada funding, through the [Federal Economic Development Agency for Southern Ontario](#) (FedDev Ontario).

The \$198,000 investment was put towards the purchase of much-needed equipment and machinery at Briar Fox, with the focus being on mowers and equipment to maintain the grounds.

The funding contributes to ongoing upgrades to the course since it was purchased by the Mohawks of the Bay of Quinte in 2021. Golf course maintenance is important for ensuring Briar Fox continues to be a local and regional golf destination.

“We are very thankful to have received funding for turf equipment,” says Briar Fox Golf Club General Manager, Augusta James. “This machinery will not only help us improve and maintain the golf course for community members, but will help us continue to work towards making Briar Fox a golfing destination within the Bay of Quinte.”

Briar Fox Golf Club is open seven days a week from April to November at 7415 Old Highway 2, Marysville, ON K0K 2N0.
